

PORT OF BRISBANE

Request for Tender

RFT-2026-045: Design, Supply, and Construction of Marine
Infrastructure Upgrades
Berth 4 and 5 Rehabilitation

Tender Release Date: 12 May 2026
Tender Closing Date: 16 June 2026, 2:00 PM AEST
Project Reference: QLD-POB-MAR-2026

1. SCOPE OF WORKS

1.1 Project Overview

Port of Brisbane Pty Ltd (the Principal) invites tenders for the comprehensive rehabilitation of Berth 4 and 5. This project is a critical asset lifecycle initiative aimed at ensuring continued structural integrity for heavy-duty maritime operations.

Core Technical Deliverables:

- **Substructure:** Assessment and structural replacement of approximately 40 reinforced concrete piles.
- **Fender Systems:** Full replacement of existing systems with modern high-absorption rubber and steel components.
- **Corrosion Control:** Design and commissioning of an Impressed Current Cathodic Protection (ICCP) system.
- **Surface Treatment:** Application of marine-grade protective coatings (Zone: **C5-M** per AS 4312).
- **Dredging:** Maintenance dredging of the berth pocket to -14.5 m LAT.
- **Mooring:** Installation of 150t SWL bollards.

1.2 Standards and Compliance

All design and construction activities must adhere to the current versions of the following Australian Standards:

- **AS 3600:2018:** Concrete Structures
- **AS 4997:2005:** Guidelines for the Design of Maritime Structures
- **AS 2159:2009:** Piling – Design and Installation
- **AS 2832.1:2020:** Cathodic Protection of Metals
- **Port of Brisbane Standard Technical Specifications (2024 Edition)**

2. EVALUATION FRAMEWORK

The Principal will utilize a weighted scoring system to determine the Best Value for Money. Proponents must address every criterion with verifiable evidence.

Evaluation Criterion	Weighting
Technical methodology, design innovation, and risk mitigation	25%
Demonstrated experience in C5-M marine corrosivity environments	15%
Project management, key personnel, and resourcing capacity	15%
WHS Management Systems and historical safety performance	15%
Commercial Offer (Lump Sum and Schedule of Rates)	20%
Environmental sustainability and local participation	10%

2.2 Mandatory Eligibility Requirements

The following are **Pass/Fail** criteria. Non-compliant tenders will be excluded from further evaluation.

- **[MANDATORY]** Certified ISO 9001:2015 (Quality), 14001:2015 (Environment), and 45001:2018 (Health & Safety).
- **[MANDATORY]** Current QLD Government WHS Prequalification (PQC Level 2+).
- **[MANDATORY]** Experience: Completion of at least one maritime project >\$5M in the last 5 years.

3. COMPLIANCE & DOCUMENTATION

Tenderers must submit the following as part of their Technical Volume:

3.1 Safety and Environment

- **Marine WHS Plan:** Specific protocols for commercial diving, over-water crane lifts, and barge stability.
- **Site Environmental Management Plan (SEMP):** Including turbidity monitoring for dredging operations and spill response for pile remediation.

3.2 Technical Qualifications

- **Design Verification:** All structural designs must be signed off by an RPEQ (Registered Professional Engineer of Queensland).
- **Project References:** Three (3) detailed case studies with verified client contact details.
- **Construction Programme:** A Level 3 Gantt chart identifying the critical path and weather-dependent windows.

4. SUBMISSION INSTRUCTIONS

4.1 Lodgement Process

Submissions must be uploaded via the **Port of Brisbane Tender Portal** (<https://tenders.portbris.com.au>) no later than **16 June 2026, 2:00 PM AEST**.

Submission Checklist:

1. **Volume 1:** Signed Tender Response Form
2. **Volume 2:** Commercial Schedule (Pricing)
3. **Volume 3:** Technical Methodology and RPEQ Design Statements
4. **Volume 4:** Corporate Compliance (ISO Certificates, PQC Level)

4.2 Terms and Conditions

The Principal is not bound to accept the lowest-priced tender or any tender submitted. All costs associated with the preparation of the tender are the responsibility of the Proponent.
